D4H CEO Talks

In conjunction with industry experts our CEO, Robin Blandford, will provide talks on how to manage and develop efficiencies within hazmat response organizations and operations. More info below:

Hazmat Team Management	
Description	Learn how to record all Hazmat operations in a common reporting format that allows you to prove your value when responding to Chemical, Biological, Radiological, Nuclear, and Explosive threats. Capture the intangible values that are traditionally difficult to evidence. Discuss how the Hazardous Materials response teams with the most data win. The best way to prepare for any budget conversation is to know what's going on with your team today and have the data to prove it. There are no arguments against facts.
Learning Objectives	<ol style="list-style-type: none"> 1. Learn how your equipment will always be ready to go. 2. Personnel will always have the necessary training records. 3. Manage your HAZMAT Operations and Easily analyze your CBRN incident reports.
